Dear Mr. Weisberg,

Knowing that you appreciate newspaper articles, I've enclosed two that you might like to read.

I'm enjoying the "north", (being Knoxville), after living in Tampa. The green grass with flowers sprouting up through red dirt certainly is a change.

Your prognostications concerning this assassination committee are unfortunately true, after reading how

things are being conducted in Washington.

I'm grateful for investigators like yourself who have integrity and remain credible.

Best Wishes,

Barbara Godwin Riney
